

OPTIMIZE JOB DISPATCH

GARMIN INTEGRATION WITH **M2FLEET**

Optimize and improve your business with our powerful and easy job management tool. Take advantage of your mobile devices and have your jobs under control

GARMIN Integration

- ▶ Our fleet-ready navigators offer the interactive navigation and messaging terminal that has been missing in your fleet management interface (FMI).
- ▶ Our fleet management and dispatch messaging interface enables direct-to-driver communication via text messaging as well as instant re-routing with “new destination” message prompts.

Optimize and improve your business with our powerful and easy job management tool. Take advantage of your mobile devices and have your jobs under control

Optimize and improve your business with our powerful and easy job management tool. Take advantage of your mobile devices and have your jobs under control

Solution

Optimize and improve your business with our powerful and easy job management tool. Take advantage of your mobile devices and have your jobs under control

Garmin GPS solutions are a key part of today's most useful, versatile and cost-efficient fleet monitoring solutions. With us on your side, drivers and dispatchers work together to improve customer response and optimize fleet resources to achieve lower costs.

	Order	Route	Description	Up	Down	State	Late	Location	Dist. worker	Unassign
#123	1		Test Job jarak dekat	▲	▼	Completed	Late	Jl. Raya Lintas Tim. Sumatra, Sidomulyo, I	68,8 km	
#122	2		Test Job B 9974	▲	▼	Completed	Late	Unnamed Road, Kota Pinang, Kabupaten La	292,8 km	

Vehicle will receive all job details directly on to their Garmin device extension or Mobile Data Terminal. Job Dispatch integrates with M2Fleet and Google maps for navigation. So, no time is wasted on going the wrong way.

GPS Device + Garmin + Phone

- GPS Device That Support with Garmin
